### Feature Software Projects

**Synchro-9** | <https://synchro9.netlify.app> | [github.com/Yuzu28/Music-App-Project](https://github.com/Yuzu28/Music-App-Project)

- Developed and deployed a personal front-end application that integrates Spotify and YouTube APIs, enabling users to search and play/pause audio for their favorite artist's top tracks or music videos.
- Implemented a robust comment section for users to engage in discussions and share their thoughts.
- Made with HTML, CSS, JavaScript, Bootstrap, React.

**Arc-9 Gaming** | [arc9gaming.nguyenjohn7.com](https://arc9gaming.nguyenjohn7.com) | [github.com/Yuzu28/Arc9\\_Capstone](https://github.com/Yuzu28/Arc9_Capstone)

- Collaborated as a member of a two-person development team to create a dynamic gaming information website, empowering users to search and discover information about their favorite games, including screenshots, gameplays, and release dates.
- Users can create an account and login to bookmark/save their favorite games.
- Made with HTML, CSS, JavaScript, Bootstrap, React, Node.js, Express, PostgreSQL and IGDB API.

**Zurrow-9** | [zurrow-9.herokuapp.com/](https://zurrow-9.herokuapp.com/) | [github.com/Yuzu28/Social-Network-App](https://github.com/Yuzu28/Social-Network-App)

- Designed and developed a robust social media site that allows users to register and login to share posts, engage in discussions, and build a community.
- Created an intuitive user interface that enables users to create a profile, start posts, like/dislike other posts, and leave comments.
- Made with HTML, CSS, JavaScript, Bootstrap, Node.js, Express, React, Redux, and MongoDB.

### Employment History

#### Center for Pan Asians Community Services - Atlanta, Ga

*Front End Web Developer / Designer*

- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS and JavaScript.
- Designed and managed WordPress websites, blogs, and design logos, catalogs, flyers, SEO, and marketing/branding collateral.
- Research user trends to implement new strategies to improve user experience.
- Analyze user needs to implement website content, graphics, performance and capacity.
- Troubleshooting and resolving application issues reported by end-users and providing site deployment and migration.
- Created visually appealing web page mock-ups using Canva and Adobe XD & Illustrator, based on client goals and requirements.
- Integrated a case management system called Apricot 360 to facilitate data collection and management for different programs.
- Developed monthly data reports and charts using Excel and Power BI to analyze web traffic flow, client data analytics and trends, and offered recommendations for improvements.
